**Importance:** High

Hi John,

Thank you for your email. Upon a preliminary review of the submitted documents, I have the following observations:

1. Test report only shows abbreviated revision date: Feb 2021. A complete revision date is required, including the day.
2. We request that the confidential business information CBI, non-CBI test report, and Certification of Conformity include a summary table indicating what revisions have been made and where the revisions are located in the report.

US Stove may either revise the reports and COC or wait until EPA completes a full review of the reports. If you have any questions, please let me know.

Greetings Dr. Sanchez,

On February 12<sup>th</sup> of this year I sent a request for renewal of our 5710 (certificate 53-16). You requested an updated CoC which I provided on February 23<sup>rd</sup>. Can you give me an update on the status of this renewal? It expires on July 19<sup>th</sup>, 2021 and I don't want to hold up production on this model for the lack of a valid current certificate.

Thank you very much for your assistance
